Subject: Microsoft Settlement

To US Federal District Court and US DOJ,

I am writing to express my support of the settlement reached by Microsoft and the DOJ. I believe that the settlement will allow all of the parties involved to move on to more productive endeavors. Microsoft has been incredibly successful because it has created products that consumers and businesses find useful. Arguably many Microsoft's competitors that decry its behavior would not even exist today had it not been for Microsoft's tireless efforts on behalf of the personal computing industry.
